MESSAGE TO OKACTE PROFESSIONALS

In every classroom of every program of every careertech center, we deliver education services to special populations. Some students can be easily identified. The vast majority can not.

As education and industry professionals, we must aid our students using best practices in our fields, meeting them where they are, in providing quality career education. By identifying and assisting them today, we build a stronger Oklahoma tomorrow. By going more in depth with our own learning, we grow more solid and dependable programs.

ANNUAL DUES

\$20

WHO IS
ESSP
FOR

Think ESSP is just for special education? Is this due to the word 'special'? Help us dispel that misconception. ESSP reaches across disciplines to serve underserved populations and promote best practices while serving these populations in Careertech's unique program structure. Construction trades to counseling to calculus, your expertise is welcome and desired in ESSP.
